Paragraph 1:
Without prejudice to the special rules governing the appointment of the Director-General, whenever elections are conducted by secret ballot the President of the General Conference (or the Chairperson of the commission or committee concerned) shall declare elected those candidates who obtain the greatest number of votes, up to the number of seats to be filled. If two or more candidates obtain the same number of votes, and, as a result, there are still more candidates than seats to be filled, there shall be a second secret ballot restricted to those candidates who obtained the same number of votes. If the results are identical after the second ballot the President shall then decide among those candidates by drawing lots.  

Paragraph 2:
Unless otherwise required by the provisions of paragraphs 1 and 2, there is no need to take a vote by secret ballot if the number of candidates is the same as the number of posts to be filled. This provision would then become paragraph 3 of Article 87.

Rule 88:
When a single elective place is to be filled and no candidate obtains in the first ballot the majority required, additional ballots shall be taken which shall be restricted to the two candidates obtaining the largest number of votes. If in the third ballot the votes are equally divided, the President shall decide between the candidates by drawing lots.

Rule 89:
When two or more places are to be filled at one time under the same conditions, those candidates obtaining in the first ballot the majority required shall be elected. If the number of candidates obtaining such majority is less than the number of places to be filled there shall be additional ballots to fill the remaining places, the voting being restricted to the candidates obtaining the greatest number of votes in the previous ballot, to a number not more than twice the places remaining to be filled.

The task to identify and formulate the corresponding changes in the provisions of Appendices 1 and 2 to the Rules of Procedure of the General Conference shall be entrusted to the Legal Committee of the twenty-eighth session of the General Conference.

Member States are requested to ensure that a sufficient number of projects specifically devoted to women are submitted under this Programme;

3. Assistance under the Participation Programme may be accorded only upon (a) a written request to the Director-General by the National Commissions of Member States or of Associate Members or territories, organizations or institutions, including intergovernmental or non-governmental organizations maintaining official relations with UNESCO, and (b) a written agreement between the parties concerned specifying the form and manner of participation and acceptance of the conditions listed under section B below, together with such other conditions as may be jointly agreed upon;

The General Conference,

Having examined the sexennial report submitted to it by the Executive Board on the contribution made to UNESCO’s activities by international non-governmental organizations (categories A, B and C) from 1988 to 1993, in application of Section VIII.3 of the Directives adopted at its eleventh session and amended at its fourteenth session,

Considering that the participation of international non-governmental organizations in UNESCO’s task is an ideal means for the Organization of associating people everywhere with its work, particularly the appropriate scientific and intellectual communities and movements reflecting public opinion that are concerned with the development of education, science, culture and communication in the world,

Recalling that such co-operation is based on Article XI of the Constitution of the Organization and is governed by Directives that constitute the framework for its implementation,

1. Expresses its satisfaction with the clear and concise presentation of the report, with the evaluation it contains and with the proposals for the improvement of co-operation between UNESCO and NGOs that emerge from it;

2. Thanks the Executive Board, the Director-General and the NGO Standing Committee for the contribution they have made to the preparation of this report;

3. Stresses the diligence shown by the international NGOs themselves in the contribution they were asked to make to the preparation of this report;

4. Welcomes the useful dialogue and mutual confidence established on this occasion, creating a climate conducive to the continuation in the future of a relationship of constructive collaboration between UNESCO and NGOs;
Expresses the hope that this dialogue may continue and become more rewarding within the Executive Board, especially as a result of the work done by its NGO Committee;

Considers that 25 C/Resolution 37 adopted by the General Conference following its examination of the report covering the previous period has been carefully implemented by the Director-General and that co-operation with NGOs has been maintained at a high level despite the reduction in the Organization’s resources during the period now ending;

Thanks the international non-governmental organizations for the efficient way in which they have combined their own resources with the means made available to them by UNESCO, especially in the form of subventions and contracts, enabling them to associate the various scientific, cultural and educational communities they represent with the implementation of the Organization’s programme;

Also thanks the many organizations that, despite having received no financial assistance from UNESCO during the six-year period now ending, have nevertheless taken part in UNESCO’s activities and in the extension of the Organization’s influence in the world;

Stresses the importance of improving and strengthening co-operation between UNESCO and NGOs so that the Organization, in accordance with the functions it exercises, may develop, as regards both numbers and quality, the networks of experts from which it must necessarily draw its support;

Recognizes the need, in improving such co-operation, to bear in mind the elements determined in its ‘Medium-Term Strategy: 1996-2001’;

Expresses the wish that, in the development of this co-operation, account be taken at the same time of the diversity of NGOs and of the role the Organization must necessarily play as regards co-ordination and follow-up, at Headquarters and through its decentralized units;

Welcomes the establishment of a data base within the Secretariat so as to ensure greater transparency in regard to information concerning NGOs and to promote better knowledge of the services they are capable of rendering to international co-operation;

Reminds NGOs of the obligations entailed by their acceptance of the revised Directives, which are an inherent part of their new or continued admission to the status of organization with relations with UNESCO;

Requests the Director-General to do everything possible to provide the Standing Committee of NGOs with the secretariat services it needs in order to operate, the provision of such services being in accordance with the Directives;

Invites the Director-General, in so far as is possible, to buildup the strength in the various Secretariat sectors of the staff with responsibility for co-ordinating and following up UNESCO’s co-operation with NGOs so that greater and more
effective use may be made of the networks these organizations constitute by developing communication between NGOs and UNESCO;

16. **Recommends, with respect to programme preparation:**

(a) that NGOs reply more promptly, and in greater numbers, to the consultations undertaken by the Director-General, particularly concerning the preparation of the medium-term strategies and UNESCO’s programme and budget;

(b) that the Director-General:

(i) modify the procedures for consulting individual NGOs on the preparation of future draft biennial programmes and medium-term strategies so that they yield fuller and better results;

(ii) intensify formal and informal sectoral consultations between the Secretariat and NGOs in order to increase the complementarily of their respective efforts in the preparation and implementation of UNESCO’s activities;

(iii) decentralize, to the greatest possible extent, the sectoral and intersectoral NGO collective consultations;

17. **Recommends, with respect to programme execution, that the Director-General:**

(a) encourage joint projects undertaken by NGOs that are the reflection of the Organization’s interdisciplinary programmes adopted by the Member States;

(b) support the creation of regional networks based on regional NGOs and regional branches of international NGOs specializing in UNESCO’s fields of competence in co-operation with NGOs, in so far as these meet a demand;

(c) associate the largest possible number of NGOs with UNESCO’s Co-Action Programme;

(d) invite NGOs, on as broad a basis as possible, to attend conferences on specialized subjects as observers and, whenever the Organization’s resources allow, invite eminent persons and representatives of NGOs to participate in these meetings as experts; ensure that the interests and opinions of NGOs taken collectively are reflected by UNESCO in the preparation of major world conferences organized by the United Nations;

(e) conclude framework agreements with NGOs that are representative, effective and competent and that have formal associate relations with the Organization so as to associate them effectively with the activities of UNESCO in the spirit of 27 C/Resolution 13.141; and to include relevant information on all applications by and negotiations with NGOs in his reports on programme implementation to the Executive Board;

(f) draw on existing procedures and investigate the possibility of adding new ones to extend co-operation with NGOs in the execution of the
Organization’s programme and make full use of the findings of review and assessment documents;

(g) take all useful measures to ensure that the contributions of NGOs with relations with UNESCO to United Nations world summits are taken into account;

18. Recommends, with regard to decentralization and geographical extension:

(a) that Member States and their National Commissions co-operate more closely with members and national committees of NGOs;

(b) that the Director-General make appropriate provision for:

(i) strengthening the Regional Offices’ role of stimulation and co-ordination in developing activity by voluntary organizations, at the regional and subregional levels, in UNESCO’s various fields of competence;

(ii) contributing to the setting up, especially in the poorest regions, of regional and subregional NGOs working in UNESCO’s fields of competence and to the strengthening of existing organizations, in the context of the new arrangements already approved by this General Conference;

(c) that NGOs:

(i) intensify their efforts to achieve broad geographical extension, in terms of their composition and of their activities, and, in order to do this, allow national bodies to be associated in their work;

(ii) establish closer co-operation with National Commissions, particularly through increased participation by their national sections in Commissions’ activities;

19. Recommends to the Executive Board, with regard to the classification of NGOs:

(a) that, when admitting NGOs, it take account both of the desirability of the best possible geographical balance, paying particular attention to requests from developing countries - according to the priorities defined within the framework of the Medium-Term Strategy 1996-2001- and of the nature of the expected co-operation with UNESCO;

(b) that it review all admissions in the light of the revised Directives and the commitment undertaken by NGOs which have confirmed their desire for co-operation;

20. Instructs the Executive Board to provide for the introduction of financial co-operation arrangements corresponding to the Directives revised by the Board at this session, and for the possible later adaptation of those financial arrangements;
21. Recommends, lastly, that a joint study be carried out by the Executive Board and the Director-General to prepare for the amendment of the provisions approved by the General Conference at its twenty-sixth session, as amended at its twenty-eighth session, concerning relations between UNESCO and foundations and similar institutions, with a view to adapting them to the Directives concerning relations between UNESCO and NGOs as revised at this session.

56. The Commission recommended that the General Conference adopt the resolution proposed in document 28 C/43 - Revision of the Directives concerning UNESCO’s relations with international non-governmental organizations, as stated:

The General Conference,

Welcoming the impressive rise in the number of non-governmental organizations and their vitality, which bear witness to the growing role played by various actors in civil society all over the world,

Considering the complexity and diversity of the social fabric in each country, which has led UNESCO for several years now to explore new ways to achieve synergies and to design innovative machinery in order to diversify, revitalize and strengthen its co-operation with NGOs,

Bearing in mind the need to elaborate a statutory framework for such co-operation which takes better account of the fields of activity of the NGOs, their representativeness, vitality, competence and effectiveness, and the nature of their co-operation with UNESCO,

Recalling the pattern that it established for such co-operation in 27 C/Resolution 13.141, in particular regarding the financial arrangements for co-operation,

Having examined the recommendation of the Executive Board contained in 146 EX/Decision 7.3,

Adopts the following revised Directives concerning UNESCO’s relations with non-governmental organizations:

DIRECTIVES CONCERNING UNESCO’s RELATIONS WITH NON-GOVERNMENTAL ORGANIZATIONS

PREAMBLE

1. In implementation of the provisions of Article XI of its Constitution, UNESCO has built up over the years a valuable network of co-operative relations in its fields of competence with non-governmental organizations representing civil society. Given the pre-eminent role that the founders of UNESCO intended non-governmental organizations to play, this partnership bears witness to the importance of the work of those organizations alongside government-sponsored action in international co-operation in the service of peoples for development, equality, international understanding and peace.
2. Fifty years after its foundation, and on the threshold of the third millennium, UNESCO notes with satisfaction the increasingly active role being played by organizations representing civil society in international co-operation, and wishes to define a new framework within which the relations it desires to maintain with such organizations may develop under the most favorable conditions.

3. These relations are designed, on the one hand, to enable UNESCO to secure advice, technical co-operation and documentation from non-governmental organizations, and, on the other, to enable such organizations, which represent important sections of public opinion, to express the views of their members. Since UNESCO is not a funding institution, these relations will be essentially of an intellectual nature.

4. The following provisional¹ are designed to further the aims of UNESCO by securing the broadest possible assistance from competent non-governmental organizations representing civil society in the preparation and in the execution of its programme, and thus increasing international co-operation in the fields of education, science, culture and communication. In addition, they should promote the emergence of new organizations that are representative of civil society in those regions of the world where such organizations, for historical, cultural or geographical reasons, are isolated or weak, and help to integrate such organizations into the network.

5. Taking into account the non-governmental organization’s own objectives and the type of collaboration that is possible with UNESCO, two main types of relations will be established: the first will involve sustained co-operation both upstream and downstream from UNESCO’s programming and priorities (formal relations); the second will consist of a flexible and dynamic partnership in the implementation of UNESCO’s programmes (operational relations).

I. FORMAL RELATIONS

1. General principles

1.1 UNESCO may establish formal relations with international² non-governmental organizations. According to the structure and aims of such organizations, the nature of their co-operation with UNESCO and the scale of the contribution they are able to make, such relations shall come under one of two different categories: consultative relations and associate relations. Relations shall be established for renewable periods of six years.

2. Conditions

2.1 An international organization shall qualify as an organization that may maintain formal relations with UNESCO provided that it has not been established by intergovernmental agreement and that its purposes, functions and operation are non-governmental and non-profit-making in character.

¹ These Directives have been drawn up in such a way as to ensure that they are, as far as possible, fully consistent with the principles and practices of the United Nations, as laid down by the relevant resolutions of the Economic and Social Council.

² The co-operation relations that UNESCO may maintain with foundations is governed by a separate set of Directives adopted by the General Conference at its twenty-sixth session, in November 1991.

³ An ‘international’ non-governmental organization is defined as a body that may be either interregional or regional, in both the geographical and the cultural sense of the term.
Such an organization shall fulfil the following conditions:

(a) it shall be engaged in activities in one or more specific fields of UNESCO’s competence, and it shall be able and willing to make an effective contribution to the achievement of UNESCO’s objectives, in conformity with the principles proclaimed in UNESCO’s Constitution;

(b) it shall be effectively engaged in activities at the international level in a spirit of co-operation, tolerance and solidarity in the interests of humankind and with respect for cultural identities;

(c) its regular active membership (consisting of groups and/or persons) shall be international, permitting it, as far as possible, to ensure significant representation of the various cultural regions its vocation is to serve;

(d) it shall form, through its membership, a community linked by a desire to pursue the objectives for which it was established;

(e) it shall have a recognized legal status;

(f) it shall have an established headquarters and be governed by democratically adopted statutes stipulating, in particular, that its general policy shall be determined by a conference, congress or other representative body. Those statutes shall also stipulate that it shall have a permanent, representative and regularly renewed governing body, representatives who are duly elected by the main body of the organization, and basic resources, deriving chiefly from members’ contributions, that enable it to function and to communicate regularly with its members in various countries;

(g) it shall have been in existence and have been carrying out activities for at least four years at the time of its requesting the establishment of formal relations.

3. Consultative relations

3.1 If it deems such a decision to be useful for the achievement of the objectives of UNESCO, the Executive Board may, either on the proposal of the Director-General or at the request of the non-governmental organization itself, admit a non-governmental organization fulfilling the conditions defined in Article 2 above and wishing to co-operate with UNESCO to the category of formal relations known as ‘consultative relations’.

3.2 Such organizations must have given proof of their ability to supply UNESCO, at its request, with competent advice on questions coming within their purview and to contribute effectively by their activities to the implementation of UNESCO’s programme.

3.3 The Executive Board shall apply the following principles:

(a) where an organization’s primary objectives are related to those of another Specialized Agency of the United Nations system than UNESCO, that agency must be consulted;

(b) admission to the category of consultative relations (i) shall not be granted on an individual basis to organizations belonging to a larger body already admitted and
authorized to represent those organizations in respect of the whole of their functions; and (ii) shall be possible only once the organization has maintained continuous and effective operational relations with UNESCO for a period of at least two years;

(c) where a number of separate organizations exist in any particular field of UNESCO’s activity, their admission to the category of consultative relations on an individual basis may be deferred with the object of encouraging the establishment of umbrella organizations or co-ordinating bodies that are better able to further UNESCO’s aims by bringing all these organizations together and may be entitled to request the establishment of associate relations, as defined in Article 4 below. The application of this principle shall not, however, deprive UNESCO of the direct co-operation of organizations whose assistance in one of the fields that are within its competence would be especially desirable.

3.4 In addition, the Director-General may decide to broaden the scope of the conditions for admission to formal consultative relations to include international networks or similar institutions of a non-governmental nature that meet the criteria set out in paragraph 2.2 above and, in addition to the mere exchange of information, may make a significant contribution to the implementation of concrete projects in UNESCO’s fields of competence, but whose structure and governing bodies are not of an international nature owing to their legal status and the legal framework within which they conduct their activities. In such cases, before taking a decision the Director-General shall consult the competent authorities of the Member State in which the headquarters of the institution concerned is located. He shall keep the Executive Board informed of any decisions he may take under the terms of this paragraph.¹

4. Associate relations

4.1 A very small number of umbrella organizations that are broadly international in membership, bring together specialist international professional associations, have proven competence in an important field of education, science, culture or communication, and have a record of regular major contributions to UNESCO’s work may, at their request and on the recommendation of the Director-General, be admitted by the Executive Board to the category of formal relations known as ‘associate relations’.

4.2 In addition to the co-operation referred to in Article 3 above, close and continuous working relations shall be maintained with these organizations, which will be invited by the Director-General to advise him regularly on the preparation and execution of UNESCO’s programme and to participate in UNESCO’s activities.

5. Admission

5.1 The Director-General shall acquaint each organization admitted to either of the categories of formal relations with the corresponding obligations and advantages. UNESCO’s relations with these organizations shall not become effective until the competent body of the organization concerned has signified its acceptance of those

¹ The Directives concerning UNESCO’s relations with foundations and similar institutions, approved by the General Conference at its twenty-sixth session, will be revised so as to take account of the inclusion of this provision in these Directives.
obligations and advantages. Requests rejected by the Executive Board may not be resubmitted to the Board until at least four years have elapsed since its decision.

6. **Modification, termination and suspension of relations**

6.1 Where the Director-General considers that circumstances make it necessary to downgrade an organization to the other category, he shall refer the matter to the Executive Board for a decision. Before doing so, he shall inform the organization concerned of the grounds for his proposal and shall communicate any observations the organization may wish to make to the Executive Board before any final decision is taken.

6.2 The same provisions shall apply if the Director-General deems it necessary to terminate UNESCO’s formal relations with an international non-governmental organization. Furthermore, a complete absence of collaboration for a period of four years between UNESCO and an organization maintaining formal relations with UNESCO shall result in the automatic termination of those relations.

6.3 As an interim measure, the Director-General may, if circumstances so require, suspend relations with an organization until such time as the Executive Board is able to take a decision. This provision shall also apply in cases where an organization’s relations with the United Nations have been suspended or terminated.

7. **Obligations of international non-governmental organizations maintaining formal relations with UNESCO**

7.1 (a) **Consultative relations**

Organizations maintaining formal consultative relations shall:

(i) keep the Director-General regularly informed of those of their activities that are relevant to UNESCO’s programme and of the assistance given by them to the achievement of UNESCO’s objectives;

(ii) acquaint their members, by all the means at their command, with those UNESCO programme activities and achievements that are likely to interest them;

(iii) at the Director-General’s request, give advice and provide assistance in connection with consultations on the preparation of UNESCO’s programmes, and in connection with UNESCO’s inquiries, studies or publications falling within their competence;

(viii) send representatives, as far as possible at the highest level, to the Conference of International Non-Governmental Organizations provided for in Section 111, Article 1, below.

(b) Associate relations

In addition to the obligations contained in (a) above, organizations maintaining formal associate relations shall:

(i) collaborate closely with UNESCO in expanding those of their own activities that come within UNESCO’s fields of competence;

(ii) assist UNESCO in its efforts to promote international co-ordination of the activities of non-governmental organizations working in a common field and to bring them together under umbrella organizations;

(iv) maintain, through their networks and regional and national representatives, effective co-ordination with UNESCO’s field units and with the National Commissions for UNESCO in the various countries.

8. Advantages granted to international non-governmental organizations maintaining formal relations with UNESCO

8.1 In accordance with the provisions of Article IV, paragraph 14, of the Constitution, organizations maintaining formal consultative or associate relations with UNESCO shall be invited by the Director-General to send observers to sessions of the General Conference and its commissions. Both these observers and those referred to in Article IV, paragraph 13, of the Constitution may make statements on matters within their respective competence in the commissions, committees and subsidiary bodies of the General Conference, with the consent of the presiding officer.

8.2 Organizations maintaining formal consultative or associate relations with UNESCO may, under the authority of their governing body, submit written statements to the Director-General on UNESCO programme matters within their competence. The Director-General shall communicate the substance of these statements to the Executive Board, or, if appropriate, to the General Conference.

8.3 In addition, the following advantages shall be granted to organizations maintaining formal consultative or associate relations:
(a) Consultative relations

(i) they shall receive, after agreement with the Secretariat, all appropriate documentation relating to the programme activities corresponding to the aims proclaimed in their constitutions;

(ii) they shall be consulted by the Director-General on UNESCO’s proposed programme;

(v) they shall be invited to attend periodic conferences of non-governmental organizations;

(vi) with a view to encouraging the emergence of organizations that are representative of civil society in those regions of the world where such organizations are still weak or isolated, and their inclusion in the network of international co-operation, the Director-General may propose the conclusion of co-operation agreements or plans of action concerning UNESCO’s programme priorities in the region concerned, subject to the same provisions as those contained in paragraph (b) (iv) below, with regional non-governmental organizations that are competent, effective and representative in those regions and maintain consultative relations with UNESCO.

(b) Associate relations

In addition to the advantages described in paragraph (a) above:

(i) as a general principle, these organizations shall be associated as closely and regularly as possible with the various stages of the planning and execution of UNESCO’s activities within their own particular field;

(v) international associations/federations that are members of umbrella organizations maintaining associate relations with UNESCO may receive directly, upon request,
the documentation that UNESCO sends to organizations maintaining formal relations with it.

II. OPERATIONAL RELATIONS

1. General principles

1.1 The Director-General may, if he deems it useful for the implementation of UNESCO’s programmes, co-operate with any non-governmental organization in a type of relations known as ‘operational relations’.

1.2 These relations are designed to enable UNESCO to establish and maintain flexible and dynamic partnerships with any organization of civil society that is active in UNESCO’s fields of competence at whatever level, and to benefit from that organization’s operational capacities in the field and its networks for the dissemination of information. Furthermore, these relations should make it possible to encourage the emergence of organizations representative of civil society, and their interaction at the international level, in those parts of the world in which they are weak or isolated. Finally, these relations should make it possible to gauge the competence and operational effectiveness of international non-governmental organizations with which UNESCO has previously had no relations whatsoever and which are desirous of establishing formal relations with it.

2. Conditions

2.1 Non-governmental organizations wishing to establish operational relations must meet the following conditions:

(a) organizations of an international nature that only partially meet the conditions laid down in Section I for the establishment of formal relations must have the operational capacity and the competence to implement, in the best possible manner, the activities provided for in UNESCO’s programme;

(b) organizations of a national, local or field nature must have the same operational capacity. AU co-operation with such organizations must be conducted in consultation with the National Commission for UNESCO of the Member State concerned and, if appropriate, in liaison with UNESCO’s field units. Such organizations may not be admitted to formal relations.

3. Obligations

3.1 Organizations maintaining operational relations with UNESCO shall undertake to keep the Director-General informed of their activities concerning UNESCO’s fields of competence and to contribute to the sexennial report drawn up by the Executive Board, in accordance with Section V, paragraph 3, below, on the assistance given by such organizations to the achievement of UNESCO’s objectives.

3.2 They shall further undertake to acquaint their members, by all the means at their disposal, with those of UNESCO’s programme activities and achievements that may be of interest to them.
4. Advantages

4.1 International organizations maintaining operational relations with UNESCO shall enjoy the following advantages:

(a) the Director-General shall take all necessary measures to ensure the appropriate exchange of information and documents with them on matters of joint interest;

(b) in accordance with the provisions of Article IV, paragraph 13, of the Constitution, the General Conference, on the recommendation of the Executive Board and by a two-thirds majority, may invite them to be represented as observers at specified plenary meetings of the Conference and meetings of its commissions. Requests from these organizations, indicating those items of the Conference’s agenda in the discussion of which their representatives would like to take part, must reach the Director-General at least one month before the opening of the General Conference session;

(c) they may be invited to send observers to certain UNESCO meetings if, in the opinion of the Director-General, they are in a position to make a significant contribution to the work of those meetings;

(d) they may be invited to participate as observers in various collective consultations of NGOs organized by UNESCO in connection with the implementation of its programme;

(e) they may have access to some of the financial procedures for co-operation described in Section IV of these Directives, if the Director-General considers that they are the most competent to assist in the execution of certain tasks scheduled in UNESCO’s programme;

(f) they may be invited to send observers to the Conference of International Non-governmental Organizations provided for in Section III, Article 1 below; they may attend meetings of the Standing Committee provided for in paragraph 1.3.1 of Section III below, in the same capacity.

4.2 Contracts may be concluded with organizations of a national or local nature maintaining operational relations with UNESCO, if the Director-General deems them to be the most competent to contribute to the execution of certain tasks scheduled in UNESCO’s programme, due allowance being made for the provisions of Section II. paragraph 2.1(b). They may also be invited to attend certain meetings organized by UNESCO if it is felt that they may make an appropriate contribution.

5. Termination of relations

5.1 A complete absence of collaboration for a period of four years shall result in the automatic termination of relations.
III. COLLECTIVE CONSULTATIONS WITH NON-GOVERNMENTAL ORGANIZATIONS

1. Conferences of non-governmental organizations

1.1 International conference

International non-governmental organizations maintaining formal relations with UNESCO may, with the approval of the Director-General, hold a conference every two years, with a view to reviewing the state of co-operation with UNESCO, conducting collective consultations on the main lines of UNESCO’s programme and facilitating co-operation between organizations having common interests. This global forum shall enable the Director-General to gather advice and suggestions from international non-governmental organizations that are UNESCO’s partners in the priority fields of its programme.

1.2 Regional conferences

Non-governmental organizations maintaining formal or operational relations with UNESCO may, with the approval of the Director-General, hold conferences in the various regions at regular intervals, with a view to examining the state of co-operation with UNESCO, holding collective consultations on UNESCO’s programmes and regional priorities, and facilitating co-operation among organizations having common interests. Such conferences shall bring together, as a matter of priority, the organizations of the region concerned and the regional or national representatives or members of international organizations maintaining formal relations with UNESCO.

1.3 Follow-up and evaluation machinery

These conferences shall make provision for appropriate follow-up and evaluation machinery (networks), in co-operation with the field units and National Commissions.

1.3.1 Standing Committee

The Conference of International Non-Governmental Organizations shall elect a Standing Committee that reflects the geocultural diversity of the Member States of UNESCO, at least one third of whose members shall be organizations maintaining formal associate relations with UNESCO. The Conference shall also adopt the Committee’s rules of procedure, which shall be proposed in draft form by the Committee and approved by the Director-General. The Standing Committee’s role between meetings of the Conference shall be to:

(a) represent the interests of all the organizations with regard to UNESCO;

(b) co-operate with the Director-General;

(c) implement the resolutions adopted by the Conference;

(d) ensure the appropriate exchange of information with the non-governmental community it represents and, in this connection, promote consultation among NGOs at all levels;
(e) make preparations, in consultation with the Director-General, for the next session of the Conference;

(f) take all possible steps to inform non-governmental organizations of the possibilities open to them for participation in an individual capacity in these conferences and in their preparation, in accordance with the rules laid down by the United Nations.

The premises and secretariat facilities necessary for the meetings of the Conference and for the work of the Standing Committee shall, as far as possible, be provided free of charge by the Director-General.

2. **Collective consultations on specific subjects**

2.1 All non-governmental organizations maintaining formal or operational relations with UNESCO may be invited to send representatives to the various collective consultations regularly held by UNESCO for the implementation of its various programmes, if such organizations can make a specific contribution to the subjects examined in these consultations. These arrangements shall serve the purpose of ensuring the best possible co-operation in the pursuit of the shared priority objectives.

IV. **FINANCIAL AND MATERIAL ARRANGEMENTS FOR CO-OPERATION**

1. UNESCO may grant various forms of financial and material contributions to non-governmental organizations likely to make a particularly effective contribution to the achievement of UNESCO’s objectives as defined in its Constitution and to the implementation of its programme.

2. **General principles**

2.1 Financial and material contributions granted by UNESCO to non-governmental organizations shall be governed as appropriate by the following principles:

(a) they shall be granted in accordance with the relevant rules currently in force;

(b) they shall be granted for programmes and activities that have a bearing on UNESCO’s priorities or constitute a useful addition to UNESCO’s programmes and activities;

(c) in no circumstances shall they constitute a permanent commitment on the part of the Organization;

(d) financial contributions shall be granted solely for the purpose of supplementing the revenue that the beneficiary organization derives from other sources;

(e) an organization receiving financial contributions shall have made appropriate arrangements for regular evaluation of the activities so financed and the submission of reports on the implementation of those activities.
3. Forms of contribution

3.1 The various forms of financial contribution shall comprise (i) the awarding of various types of contract (contracts for the implementation of framework agreements; other contracts for the implementation of UNESCO’s regular programmes; contracts under the special programme of support to non-governmental entities for activities in developing countries); (ii) contributions under the Participation Programme; and (iii) subventions.

3.2 Material contributions may include office accommodation, in accordance with the terms of Section I, paragraph 8.3(b) (iii); use of UNESCO’s conference facilities, and the granting of UNESCO’s patronage.

4. Conditions for the granting of financial and material contributions and for the submission of reports

4.1 The conditions for the granting of financial and material contributions and for the submission of the corresponding reports shall be considered and adopted by the Executive Board, on the proposal of the Director-General. They may be revised as needed.

V. PERIODIC REVIEW OF RELATIONS

1. The Director-General shall include in his periodic reports information on the main aspects of co-operation between UNESCO and non-governmental organizations.

2. At each ordinary session of the General Conference the Director-General shall present a concise report on any changes that have taken place by decision of the Executive Board in the classification of international organizations admitted to the various categories of formal relations with UNESCO. This report shall also contain the list of organizations that maintain operational relations with UNESCO, together with those that have submitted requests for admission to the two categories of formal relations or to the category of operational relations and whose requests have not been accepted.

3. The General Conference shall receive, every six years, a report by the Executive Board on the contribution made to UNESCO’s activities by organizations maintaining formal relations with it. The report shall include an evaluation of the results of co-operation with organizations maintaining operational relations with UNESCO. It shall also indicate the results of co-operation implemented under framework agreements concluded with certain organizations, and make recommendations on the renewal of such framework agreements. Finally, it shall contain a list of those organizations whose lack of collaboration has resulted in the automatic termination of formal or operational relations with UNESCO, in accordance with these Directives (Section I, paragraph 6.2 and Section II, paragraph 5.1).
VI. REQUESTS FOR THE ESTABLISHMENT OR MODIFICATION OF RELATIONS

1. The Executive Board shall rule once a year on matters within its mandate relating to the establishment of relations between UNESCO and non-governmental organizations, as defined in these Directives.

2. The Director-General shall ensure that the Executive Board is informed of every decision taken by him under the terms of these Directives.

3. Requests for the establishment or modification of formal relations shall be submitted no later than 31 December of each year.

4. Requests for the establishment of operational relations may be submitted at any time. They shall be accompanied by a copy of the statutes and of the instrument of legal recognition of the organization, a list of members, with their nationalities, a recent report covering at least two years of activities and a brief description of the projects that the organization hopes to implement in co-operation with UNESCO.

VII. INFORMAL RELATIONS

1. UNESCO may maintain informal relations with other non-governmental organizations.
