1. Having examined document 149 EX/5 (Parts I, II and III) and 149 EX/INF.3 and Add. and in particular the information on the first steps that have been taken recently and those that are under consideration for

the adaptation of the Organization to support the implementation of the Medium-Term Strategy (28 C/Resolution 0.12 (III), para. 17),

2. Noting that a comprehensive review of the personnel resources of the Organization is under way with a view to achieving the most efficient utilization of human resources through measures including agreed early retirement,
3. Noting with regret that a staff cost deficit of \$7.3 million was produced during the biennium 1994-1995,
4. Recalling 28 C/Resolution 28.2 concerning a possible increase in staff costs in future,
5. Requests the Director-General therefore to:
  - (a) ensure that no deficit is incurred in staff costs in future;
  - (b) introduce all measures necessary to implement the programme within resource availability;
  - (c) present to it at its 150th session all relevant information on the staff situation including projections on short-term and long-term administrative and financial results and the implications of measures described in document 149 EX/5 (Part II), giving special attention to envisaged retirements, separations and related indemnities, and also on the overall situation with regard to staff costs, expenditures for temporary assistance, personal promotions and consultants, in particular special advisers, and related costs (contracts, travel, daily subsistence allowances, etc.);
  - (d) present to it at its 150th session a report on the results of the work of the high-level Task Force;

(149 EX/SR.8)

II

**Intergovernmental Oceanographic Commission**

The Executive Board,

Requests the Director-General to submit to it for decision at its next session a detailed report, specifying the scope of the measures aimed at conferring operational flexibility on the Intergovernmental Oceanographic Commission (IOC) at the administrative and financial level, and reviewing the work of the ad hoc Group on the Development, Operations, Structure and Statutes (DOSS II) of IOC.

(149 EX/SR.8)

III

**World Solar Summit**

The Executive Board,

1. Having reviewed the Medium-Term Strategy for 1996-2001 (28 C/4 Approved), and the Approved Programme and Budget for 1996-1997 (28 C/5 Approved),
2. Recalling 145 EX/Decision 4.1 (Part A.II, (b)(viii) and Part B, para. 10, (j)(iii)) inviting the Director-General to give special attention, in the Medium-Term Strategy (28 C/4) and in the Draft Programme and Budget for 1996-1997 (28 C/5), to the activities relating to renewable energy sources for development,
3. Taking into account 145 EX/Decision 5.3.2 approving the Statutes of the World Solar Commission,
4. Stressing its recommendations on the Draft Programme and Budget for 1996-1997 (28 C/6, para. 32) to give importance to the activities relating to renewable energy sources, and to organize regional consultations in Africa, Latin America and the Caribbean, Asia and the Pacific, the Mediterranean countries, and Central and Eastern Europe, with a view to the preparation of the World Solar Summit,
5. Recalling 28 C/Resolution 2.1 (para. 2.A(e)) adopted by the General Conference, inviting the Director-General to facilitate the use of renewable energy sources for development,
6. Noting that the preparation of the World Solar Summit, to be held in Harare, Zimbabwe, on 16 and 17 September 1996, has continued during 1994-1995, in compliance with 27 C/Resolution 2.1, 2(e) and paragraph 02117 of the work plan in document 27 C/5 Approved,
7. Convinced that a wider use of clean renewable energy sources would be a factor conducive to social development and to the preservation of the environment, as it would:

- (a) reduce developing countries' bills for energy imports;
  - (b) make electricity available to rural and isolated populations in order to enhance their educational, sanitary and communication levels, as well as their income-generating and employment opportunities through the creation of small-scale industries, thus reducing rural-urban drift;
  - (c) contribute to developing an environmentally sound economy;
  - (d) improve the quality of life of women, especially in rural and remote areas, as the burden of carrying fuelwood and drinking-water would be greatly alleviated, thus giving them more time to engage in educational and income-generating activities;
  - (e) decrease deforestation and desertification, leading to the improved fertility of the land and the preservation of ecosystems;
  - (f) contribute to saving the earth from environmental degradation and global warming;
8. Expresses appreciation to the Director-General for his efforts in implementing the World Solar Summit Process;
  9. Also expresses its appreciation to the Heads of State and Government who have agreed to serve on the World Solar Commission on a personal basis, and especially to its Chairman, H.E. Dr Robert Mugabe, President of the Republic of Zimbabwe, who has agreed to host the World Solar Summit in Harare on 16 and 17 September 1996;
  10. Calls upon all Member States of UNESCO to contribute to the success of the World Solar Summit and to ensure their participation at the highest possible level;
  11. Invites the Director-General: (a) to ensure that sufficient financial, technical and human resources, drawn also from extra-budgetary sources, are made available for the effective functioning of the World Solar Commission, the preparation of the World Solar Summit and follow-up activities; and (b) to report to it at its 150th session on the results achieved in this regard.

10. Voluntary contributions, gifts, bequests and subventions, whether in cash or in kind (hereinafter referred to as 'contributions') may be offered to UNESCO by private persons, associations, institutions and corporate entities (hereinafter referred to as 'private funding sources') either on their own initiative or upon request by the Director-General.

10. The request will be rejected by the Director-General if he considers that the purpose for which the name or emblem is to be used is not consistent with the policies, aims and activities of the Organization.
