(77 EX/SR. 1, 32)

ITEM 3. METHODS OF WORK OF THE ORGANIZATION

3.1 Second report of the Special Committee to study the methods of work of the Organization (Ad Hoc Committee) (77 EX/2)

I. Methods of work of the Administrative Commission of the General Conference

The Executive Board,

1. Having examined the report of the Special Committee on the methods of work of the Administrative Commission of the General Conference (77 EX/Ad Hoc/10, paragraphs 84 to 92),
2. Considers that there is no necessity to reduce the present functions of the Administrative Commission of the General Conference or to entrust it with examining certain items which are at present within the competence of the Programme Commission.
3. Decides that the Executive Board will henceforth make a more thorough study, for the General Conference, of the administrative, budgetary and financial problems of the Organization (reports on the execution of the budget during the preceding financial period and the current one, external auditors' report, causes of increases in costs and staff, breakdown of proposed expenditure by object of expenditure and other classifications, methods of drawing up the budget and budget estimates);
4. Decides to add to the provisional agenda of the General Conference, under the item " Consideration of the Programme and Budget for 1969-1970" a sub-item entitled

“Technical examination of methods of budgeting and budget estimates” , which will include , an examination of the causes of increases in costs and staff in Part II of the draft programme and budget:

5. **Considers that there is no need to entrust the Administrative Commission of the General Conference with the study of the Executive Board’s report on the methods of work of the Organization:**
6. **Recommends to the General Conference that in future figures for the amount to be reimbursed to the Working Capital Fund and Miscellaneous Income should be formally approved by the Administrative Commission and inserted by it in the Appropriation resolution;**
7. **Recommends to the General Conference that co-ordination between the two Commissions, especially in regard to the Draft Appropriation resolution, should be secured by a joint meeting of their Bureaux;**
8. **Recommends further to the General Conference that the present composition of the Commission (a plenary organ of the General Conference) be maintained.**

II. Reports of the Director-General

The Executive Board

1. **Having considered the report of the Special Committee on the matters referred to it under 72 EX/Decisions 3. I (II) and 76 EX/Decisions 3.1 paragraph 4 C concerning the reports of the Director-General (77 EX/2 Section IV);**
2. **Recalling that the continuance of periodical reports to Member States on the activities of the Organization is a constitutional obligation of the Director-General,**
 - I. **Considering that the reports of the Director-General are a key factor and essential aid to the implementation of the Board’s responsibilities for the execution of the programme and that it has not been possible for the Board in the recent past to make full use of these reports for that purpose, and that it has thus not been affording the Director-General the close collaboration to which he is entitled in this common task.**
4. (a) **Requests the Director-General to continue to prepare his written report for the first year of the biennium in its present form but invites him to provide an introductory section to that report in the form of a written critical and synthesized survey on a selective basis dealing with the important issues, achievements and difficulties arising in each sector and in general as regards the execution of the programme (the complete report to be available to the Board at its first session in the second year of the biennium);**
 - (b) **Decides to recommend to the General Conference that the report on the second year of the biennium should include an introduction containing, inter alia, an assessment of projects and programmes for the whole two-year period;**
5. **Further invites the Director-General to use the occasion of his oral reports to the Board, as necessary, to keep it informed throughout the biennium in a manner similar to that set out in paragraph 4 (a).**

III. Functions and responsibilities of the Executive Board (77 EX/2 Section V)

The Executive Board,

1. **Having studied the report of the Special Committee on the subject of the functions and responsibilities of the Executive Board,**

2. **Recognizing** that the responsibilities laid upon it by the Constitution have inevitably become heavier as the Organization has developed and must continue to do so,
3. **Appreciating** that the growth of the Organization's work and its activity as a Participating and Executing Agency for the United Nations Development Programme and other international programmes must necessarily add to the range and complexity of the functions which the Board must discharge,
4. **Recognizing**, in particular, that it is desirable to make provision whereby:
 - (a) more attention could be paid than in the past to the examination of the Director-General's periodical reports on the activities of the Organization as part of the Board's general responsibilities for the execution of the programme; and
 - (b) a more thorough study could be made of the administrative, financial and budgetary aspects of the programme for the assistance of the Administrative Commission of the General Conference and at the same time in implementation of the recommendations on this subject made by the United Nations Committee of 14;
5. **Having reviewed** its method of work with particular reference to the need for the devolution of preparatory work to the appropriate subsidiary bodies and for the nomination, as individual members may deem suitable, of deputies for this purpose so that the Board itself may be able to carry out its full responsibility for the increasing scope and complexity of its functions in the most effective manner;
6. **Adopts** the following plan:
 - (a) The allocation of preparatory work on items on the Board's agenda to the permanent commissions of the Board should be more methodical along the lines suggested by the Special Committee, in particular:
 - (i) the Programme and External Relations Commission should in future undertake a preparatory examination of the draft programme (Part II of document C/5);
 - (ii) the Finance and Administrative Commission should be charged with the preparatory study in depth of the administrative, financial and budgetary problems of the Organization (see paragraph 12 (3));
 - (iii) the commissions should be timed to meet as necessary up to 10 days before the Board meets for its work in plenary meetings,
 - (iv) the commissions should be informed in advance, as far as practicable, of the items to be assigned to them for each session,
 - (b) A Special Committee will be formed, on an experimental basis, composed of 12 to 15 members who would meet between sessions of the Executive Board as necessary with the following tasks:
 - (i) to study, in depth, the important matters regarding the execution of the programme arising out of the Director-General's periodical reports and other similar relevant reports relating to past activities, in particular, inspection reports emanating from Unesco or from the United Nations to the extent that they affect Unesco, evaluation reports, final reports on UNDP projects carried out by Unesco, reports on decisions taken within the United Nations system affecting the execution of Unesco's programme but which do not call for early action by the Board, it being understood that the results of the Board's intensified examination of the execution of the programme made possible by this preparatory study should be conveyed to the General Conference

within the framework of the Board's comments on the Director-General's reports, which the Chairman of the Executive Board presents to the General Conference;

- (ii) to carry out such studies regarding the methods of work of the Organization as have hitherto been carried out by the Special Committee (Ad Hoc Committee) and that may arise in the future,
 - (iii) to undertake preparatory work on the arrangements for sessions of the General Conference; and
 - (iv) to report to the Executive Board on its work as set forth above.
7. Decides that the new Special Committee thus established will have the same membership as the Special Committee to study the Methods of Work of the Organization (Ad Hoc Committee) set up at its 75th session;
 8. Decides further to assign the Committee, for 1968, with the terms of reference defined in paragraph 6 (b) (ii) and (iii) of this resolution, on the understanding that the Committee as constituted by the Board in 1969-1970 would, as from 1969, assume all the functions mentioned in paragraph 6 (b) .

IV. Composition of the Executive Board

The Executive Board,

1. Having reviewed the problem of the composition of the Executive Board at it was invited to do by the General Conference in 14 C/Resolution 7 and in the light of the report of the Special Committee (77 EX/2 Section VI) (see 77 EX/SR.26, 27, 28, 29, 30, 32),
2. Taking note of the terms of that resolution which state that the aim of this review is to ensure an equitable, balanced representation of the various cultures and geographical regions, bearing in mind that members elected to the Board should also be persons with experience and competence in the fields proper to Unesco in accordance with the spirit and letter of Article V .A .2 of the Constitution, bearing in mind, further, that half the number of Member States have never been elected to membership of the Executive Board,
3. Taking into account the observations made on the inadequacy of the representation of groups IV and V as composed in document 77 EX/2, Annex V,
4. Draws the attention of Member States presenting candidates to the first sentence of Article V .A .2 of the Constitution, in order to ensure a broader representation on the Executive Board of all disciplines that further the activities of the Organization,
5. Having considered, with a view to achieve the purpose of the above-mentioned resolution, the following possibilities:
 - (i) to increase the number of members of the Executive Board to 32, and
 - either to establish a system of electoral groups of Member States for the purpose of election to the Executive Board and for that purpose only, which would govern the elections, the groups being constituted and seats allocated to the said groups as follows:
