Amendment to the Draft Programme and Budget for 2008-2009 (34 C/5 2nd version)Submitted by **CUBA****Part II.A – Programmes:**

Major Programme:	I	EDUCATION
Resolution No.:	01000	
Biennial sectoral priority:	2	Fostering quality education for all at all levels and in both formal and non-formal education throughout life, with particular emphasis on vulnerable and disadvantaged groups
Paragraph:	(iii)	
Budgetary implications indicated by the sponsor:	\$50,000	
Source of financing proposed by the sponsor:	Major Programme I – Education	

Proposed modification:

- (iii) promote policy dialogue, research, norms and standards – to anticipate the research agenda on issues relevant to access to and quality of education throughout life and to ensuring successful completion by all learners. It will convene intellectual platforms of experts on research findings and policy recommendations to be used to enrich the high-level policy dialogues at the global, regional, subregional and national levels where UNESCO will organize consultations with a broad range of partners, especially on issues related to quality education and adult education; furthermore to assist countries in establishing legal frameworks at the national level to ensure the implementation of standard-setting instruments. UNESCO will work in partnership with a range of regional institutions and mechanisms to further the EFA agenda, particularly the African Union Commission and the forums of Ministers of Education in the various regions (e.g. MINEDARAB, COMEDAF, PRELAC), and will support the 2009 Educational Congress, to be held in Havana, Cuba, in February 2009;

* This proposal was received by the Secretariat on 31 August 2007.

Explanatory note:

To respect the commitments made at the World Education Forum in Dakar;

To continue developing and strengthening primary and secondary education at the national and international levels, to evaluate academic performance and the measures adopted to increase the effectiveness of education through the renewal of content, teacher training and the improvement of teaching methods, bearing in mind the positive results of the educational congresses held in Havana for several years now, under the auspices of UNESCO;

To promote the exchange, analysis and examination of education issues and seek other alternatives;

To gain greater knowledge of current education issues on a worldwide scale and make a scientific pedagogic contribution to their analysis.
